The Most Successful Photoplay Ever Shown in New York

Where Are My Children?

The Play That Stopped Traffic on Broadway

This marvelous photoplay created a sensation on Broadway. It compelled the admiration of press, public and clergy. Physicians and educators gave it their unqualified endorsement. It is a dignified presentation of the subject of birth control, produced by a reverent and master hand. Enthusiastically endorsed by Rev. C. H. Parkhurst, the best known clergyman in America, by Father John J. Hughes, Superior Paulist Father of the United States, and others of equal prominence.

Your picture, "Where Are My Children?" is a modern Bible and should be seen by every soul in the world over sixteen years of age.—WILLIAM J. STONE, United States Senator.

To the Voters of Texas.

The constitutional amendment to be
voted upon by the people on the sev-
enth of November is distinctly an edu-
cational amendment, and is the only
amendment to be considered at that
time. One leading feature of the
amendment is that it does not impose
a tax of itself but if adopted will give
the various districts and counties of
the state an opportunity to secure ad-
ditional support for their schools if
they need it and want it.

The amendment was submitted to
the people of Texas in response to a
widespread demand throughout the
state for an opportunity to secure
greater support for the schools than is
now permitted by the constitution of
the state. Many districts in Texas
have already reached the constitutional
limit in taxation and are yet short of
funds with which to provide an ade-
quate system of public free schools.
Inasmuch as the amendment does not
levy a tax on any district or county,
the voters of any such counties and
districts as may not need additional
support should in good neighborly
spirit vote for the amendment, for by
so doing they will give the needy dis-
tricts of Texas an opportunity to es-
tablish good schools for their children.

Four hundred sixty-seven independ-
ent school districts, and approximately
two thousand common school districts
in the State have already voted upon
themselves the limit in taxation per-
mitted by the present Constitution.
Many of these districts need additional
support and cannot secure another
dollar for their schools unless this
amendment is adopted. On account of
the compulsory school attendance law
many schools in these districts are now
filled to overflowing with pupils for
whom there is no provision for housing,
seating or teaching. The only relief
for such districts is the adoption of
the amendment to Section 3, Article 7,
of the State Constitution, known as
House Joint Resolution 30, to be voted
on the seventh of next month.

Yours for the schools,
W. F. DOUGHTY,
State Superintendent.

Destructive Fire.

One of the most destructive fires
that has visited this section in quite
a while occurred Thursday evening
when the home of J. W. Ulbrich,
some two and one-half miles south of
town on the Yancey road, was en-
tirely destroyed by fire, one mattress
alone of the entire contents of the
two-story building being saved from
destruction. Besides the residence
a large quantity of feed stuff—both
straw stacks and baled hay also was
consumed, his barn alone escaping de-
struction. The fire originated in the
kitchen, supposedly from the careles-
ness of children around the fire. The
loss is estimated at between \$3,000 and
\$4,000. No insurance.

Mr. Ulbrich was away from home at
the time, being on a hunting
trip with a party of friends, but ar-
rived about the time the fire had com-
pleted its destruction. As soon as the
people of the town were apprised of
the fire parties immediately left for
the scene but arrived too late to be of
much assistance.

No man in this section has played in
harder luck than has pursued Mr.
Ulbrich for the past half dozen years,
and a less resolute man would have be-
come discouraged. Just a few years
ago he lost his barn, smokehouse and
other improvements by fire; some two
years ago he lost sixty bales of cotton
that he had stored in cotton sheds at
Galveston during a storm that visited
that city, the brokers to whom the
cotton was consigned claiming that
it was washed out to sea.

Mr. Ulbrich has the sympathy of all
our people in his severe loss.

To the Voters.

At the request of several friends I
offer myself as a candidate for Const-
able of Precinct No. 1 (Hondo) at the
election to be held next Tuesday. As
the tickets are already printed my
name will not be on them, therefore I
request the people who desire to vote
for me to write my name in the blank
space under "For Constable" on the
last column of the tickets.

Respectfully,
HENRY KUECK.

Boil ten minutes, when skin may be

Report of Fifth District Mothers' Convention.

(PRINTED BY REQUEST.)

The Fifth District Mothers' Convention, which met in Austin on 2, 3rd and 4th of May, adjourned Thursday afternoon after six very interesting meetings. During the day, the Mothers' met in the A. D. C. room in the Capital, while the night sessions were held in the Auditorium of the High School. All meetings were unusually well attended, there being about 125 visiting Mothers' in Austin.

During intervals, we were delightfully entertained with a musical programme by three blind students with song and piano recital, by the Austin High School, string and brass band and other musicians. A rising vote of thanks was extended to the blind students.

After registering Tuesday afternoon and receiving delegates badges, we proceeded to the Governor's Mansion where Mrs. Ferguson very graciously received us (the Governor was not at home.)

The first meeting Tuesday night at the Auditorium was opened by an address of welcome by the Mayor of Austin who presented Mrs. Toome the District President with a lovely gavel, inscribed on a band of silver, and made by the boys of the Manual training school of Austin.

Wednesday morning, Mrs. Toome, President of Fifth District presided with Mrs. Buckner, Vice-President.

She told of her work during the year and was not at all well satisfied with the work done in the district.

Still two years ago there were 42 Clubs in the district where now there are 113.

The County Chairman had not been active enough, hence very few new clubs had been formed during the year.

Mr. Block of Del Rio was then elected a life member of the Association.

Mrs. Monkhouse's report was then read, showing that \$42.50 had been collected and \$42.50 expended leaving the Treasury without a cent.

Mrs. Penfield, agent for the Mother's Child Welfare Magazine, urged every member to subscribe. She told of an offer made to every club of 50 members of one year's free subscription to the magazine.

Mrs. Woodson, in her report, said that San Antonio had 31 clubs, all affiliated, Medina Co. 3. There are 81 counties in the Fifth District. She had little to report as so many of her letters remained unanswered, especially those in border towns, where they seem more interested in the Revolution

as they are often deficient. Medical inspection is not alone necessary but supervision and exclusion of such defective pupils is necessary to be successful. In New York, after an inspection of eyes, of 10,000 pupils, there were found to be 35 per cent defectives. Often when a child falls behind in his studies it is because of some defect and often a boy is thrashed on account of poor grades when the poor child is really suffering from some defect unknown to himself or teacher.

The schoolrooms are really hotbeds of contagion. Irregular and mismanaged homes help to advance disease in school by children carrying it there. There is no more carefully accumulated than a body of school children from so many different homes.

A Medical Supervisor can determine how long a child should be excluded from school after some contagious disease, and schools should be closed and fumigated for a definite time. A tubercular scholar bars school compulsion. Stop to think of the results of a scholar after one year's association with a moral degenerate. All such cases should be given close attention. Medical inspection in school rooms will answer questions higher up. Resolution was made that it be recommended that sanitation and ventilation of school rooms by janitor be enforced. Windows should be kept open one hour after sweeping.

Dr. Moore said Hygiene is science of health. The rules thereof should be strictly observed. He recommends white black-boards instead of black, windows should be always open, light is essential and if stoves are needed they should be enclosed so that heat is moderated. We do not catch cold from outside air but from the impure air of closed rooms. Individual drinking cups should be insisted upon. Also all play grounds need attention. He says every teacher should be taught deep breathing and should teach it to pupils for a few minutes every day with open windows.

Mrs. Bardo of Taylor said, to interest all mothers on mouth sanitation, have a dentist talk to Mothers' Club and make them realize how very important a sanitary mouth and good teeth are to everybody. A disease of the mouth is often the origin of many chronic diseases and all efforts on enforcing the pure food law are useless unless your teeth are good and your mouth clean. We must educate Mothers to co-operate with school board and physicians and have them treat children who cannot afford treatment, as it is well known that dentistry is beyond the reach of the poor. Teach Mothers' to use brush and they will teach children.

The most discussed question of the day is military training in public schools.

American mothers are all opposed to war, although Ruskin says women are responsible for war. It is not because we expect our boys to go to war or want them to fight, but so that when the occasion presents itself they will know how to fight and how to defend themselves. One mother said it is the man who always carries a gun who will shoot somebody in the end, but our boys won't always have to carry a gun; we only want them to know how to use it when necessary. You must look on both sides of it, the ideal and the practical, and the real cause of objection of mothers is really a selfish one. The first question to appeal to a mother is: "What will my boy gain by a military training?" It will teach them discipline, straight walking, obedience and to become better citizens. In point of health, it shows that in a school where military training was introduced there are ten girls to one boy in the hospital now. It develops them physically. The worst objection is that it might create more autocracy than democracy. Through schools is the easiest way to make soldiers when needed. A manly leader will make a manly follower.

Prof. Doughty, the State Superintendent of Public Instruction, said there are three needs for educational uplift of the state: First, it is the compulsory school attendance law. We have that law but not yet fulfilled. Mothers must study these educational problems and enforce this law. Get busy and make it a success. It was a bitter fight to put it through and it still has its enemies. Second, providing ways and means for financing the schools of the state. It takes money in schools as well as any other business. A 50-cent limit tax is not sufficient on account of increasing responsibilities. It is a business proposition and there is no apology necessary for same. See that your husband votes right when he goes to the polls for a tax to support a nine months school term. The third consideration is that of leadership. We want teachers who are trained to run our schools. Where we have efficient leaders we have good schools. We want an expert superintendent, educated teachers and able assistants. The Superintendent should be elected by the County Board of Education and paid by them. This board should make it a point to go out into

Keeping Yourself Well

HOW YOU GET SICK

Sometimes you overload your stomach with rich foods. Your life may be an active one, and thus you may care for all you eat. But a few days of inactivity show your system does not call for so much. You awake in the morning tired. Your body feels heavy; you know you are not up to the mark. Your digestion has not cared for the overload. Part of it remains. It generates gas that inflames the delicate linings. They fail to pour out the digestive fluids and neglect to absorb the life-giving elements. You know something is wrong.

Your body gets weak, and soon opportunity is offered for some severe illness.

Taken in time, the indigestion would not become serious. First remove the overload; then soothe the sore membranes; then build up this weakened body. It's simple to say, but not too easy to do. You need help. A tonic that will quicken digestion, help remove waste, soothe the sores, and arouse the system—that's just what you need.

Perfina has an enviable record in this respect. It has aided many thousands in the last century to overcome just these conditions, and thereby prevent serious sickness. The tablet form is convenient for regular administration.

Perfina Tablets are the ideal laxative and liver tonic. They have no unpleasant effects and do not irritate the bowels. 25c and 50c. The Perfina Co., Columbus, O.

Good Eye-sight

is essential to health, comfort and appearance. Have you ever noticed a strained look on your face? Usually this comes from eye-strain. More wrinkles are caused by eye-strain than by old age. Headaches caused by eye-strain cannot be cured by medicine, it depends upon optical skill of the optometrist who prescribes the glasses. Having had 16 years experience in Medina County assures you of satisfaction.

What We Make of Ourselves Depends upon the Ideals which we habitually hold.

Drives Out Malaria, Builds Up System

The Old Standard general strengthening tonic, GROVE'S TASTEFULS, chills tonic, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c.

When a bride steps on the scales, should not her father give her a weight?

A good point to remember—a kind deed is worth being appreciated.

A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

If your work is tiring; if your nerves are excited; if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions.

It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.

Scott's is strengthening thousands of mothers—and will help you. No alcohol.

TWO GREAT FILMS BOOKED for HONDO

"Where are My Children?" and
Anna Pavlowa Coming
to Star Theatre

Two large and important contracts have just been signed involving what is said to be one of the largest cash sums ever expended for the presentation of a production to the patrons of the Star Theatre. Hunter of Sabinal, signed up with the special representative of the Universal Film Mfg. Co. of New York, who has been in the city recently, and it has been announced that the famous picture, "Where are My Children?" which has created a great sensation over the country, will be shown in Hondo, Wednesday, Nov. 28th. "Where are My Children?" deals in a delicate manner with the subject of birth control. The play points a scornful and accusing finger at the families best situated to raise children, but who close the portals of the home to the "unwanted ones," who deny themselves the pleasure of children simply for the freedom to swing continuously through the gay social whirl. It presents a persuasive protest against a crime that has gone too long unchallenged, it's mission will benefit humanity, it has a strong appeal for the betterment of shallow society.

This picture has received the endorsement of many leading physicians, statesmen, club women, and has been applauded by the press and pulpit.

ANNA PAVLOWA.

The contract covering the presentation of Anna Pavlowa in "The Dumb Girl of Portici" at the Star Theatre is a remarkable illustration of modern advancement in the amusement field, when those who have idolized Mme. Pavlowa on the speaking stage and who have paid from three to five dollars per seat for the privilege will see a far greater Pavlowa when they witness her triumph in the screen spectacle based on Auber's "Mansueto," and it has been announced that this great masterpiece will be shown at Hondo at popular prices not withstanding that the production has been shown at from one to two dollars admission in the large cities in the east. Date announced later.

The Box Supper.

The box supper conducted by the patrons of the Longview school last Saturday night proved a great success both from a social and financial viewpoint. A large number of the people of the neighborhood, besides quite a number from other points in the county were present—a general meeting of old friends that will long be pleasantly remembered by those present.

The bidding for the boxes was spirited and resulted in the neat sum of \$40.20, which will be used in procuring maps and other essentials for the use of the school. The patrons of the school are grateful to their friends for their presence and patronage at the entertainment.

After the supper was over the victuaries of torpichore took charge and enjoyed themselves until a late hour.

These things make it so amazingly comfortable that people can hardly believe their senses.
